***Outsourcing the operational processing chain for market activities***

European banking group Dexia and U.S. professional services firm Cognizant have signed, on the 4<sup>th</sup> October 2017, a 10-year agreement allowing Cognizant to become Dexia's strategic provider of information technology and business process services for capital markets and credit operations in France (Dexia Crédit Local) and Belgium.

Under the agreement, 150 Dexia employees will move to a dedicated, newly-formed Cognizant company in France to which Dexia will transfer certain IT and business process services. In order to allow a smooth transition, implementation will take place in two stages, with the transfer of IT services by November 2017 and of business operations by May 2018 at the latest.

A new managed services platform will be built to run Dexia's credit operations, spanning a number of functions including transaction settlements, clearances and records maintenance. The agreement will provide more flexibility to Dexia's cost base, enabling potential savings of approximately EUR 100 million to be made over the lifetime of the agreement. In addition, the technological support provided by Cognizant will enable Dexia to create the appropriate investment framework to strengthen its IT infrastructure.
