## 1 Group profile & State funding guarantee

- A Overview of a Group in orderly resolution
- B Pursuing the resolution beyond 2023

A

# Dexia has abandoned its banking license since 1 January 2024

- In resolution since 2012 and detaining a banking license until 31 December 2023
- Filing of an application with the Autorité de Contrôle Prudentiel et de Résolution (ACPR) on 4 July 2023 to **abandon the credit institution licence and authorisations for investment services of Dexia**
- Continuation of the **orderly resolution of Dexia as a non-bank as from 1 January 2024**, with the approval of the ECB granted mid-December
- Withdrawal of banking licence and authorisation for investment services enabling a **further rationalisation of Dexia’s activities and a simplification of its operations**
- **Renaming of Dexia Credit Local** into “**Dexia**” as from 1 January 2024, and **Dexia SA** into “**Dexia Holding**” as from 19 January 2024

# Dexia has been executing its orderly resolution plan since end of 2011

31 December 2011

31 December 2023

## Orderly Resolution Plan

### The Dexia Group entered into resolution at the end of 2011.

Validated in December 2012 by the European Commission, the Orderly Resolution Plan consists in:

- **Divesting commercial franchises**
- **Managing the run-off of the portfolio without any additional activities**

## Mission

During the last ten years, Dexia did not have any new commercial activity and solely focused on managing its portfolio in run-off, mainly composed of public sector assets and government bonds. To fulfil this mission, Dexia has set **3 strategic objectives**:

- 1 Maintain the ability to refinance its balance sheet**
- 2 Preserve its capital base** in order to comply with regulatory ratios
- 3 Ensure operational continuity**

## Support from States

In 2012, shareholders States have supported Dexia through:

- **A capital increase of EUR 5.5 bn** bringing the share of Belgium and France to resp. 52.78% and 46.81%
- **A funding guarantee**

# In 2012, keeping a banking license was essential to execute the ORP<sup>1</sup>

## Avoiding any systemic risk

Dexia represented a **systemic risk for European financial markets** given:

- Its ~EUR 400 bn balance sheet as of the end of 2011
- Its extensive off-balance sheet derivatives with a large number of counterparties
- Its activity of financing the European local public sector, mainly in France and Italy

## Securing funding

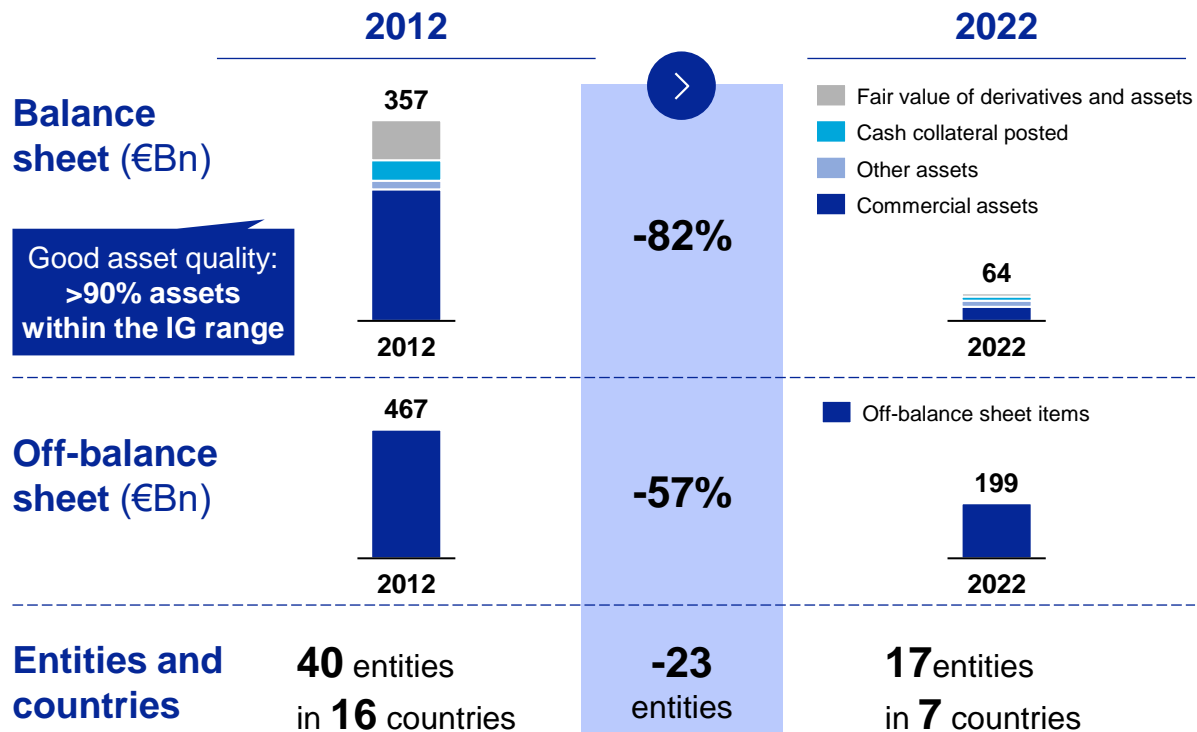

Dexia was highly dependent on Central Bank funding and needed to **maintain an access to Eurosystem mechanisms**, in addition to its other funding sources

The preservation of Dexia's banking license was essential when the Group entered the resolution process. However, its withdrawal was part of the roadmap validated by the European Commission in 2012 towards the longer-term resolution

A

# After ten years of executing its orderly resolution plan ...

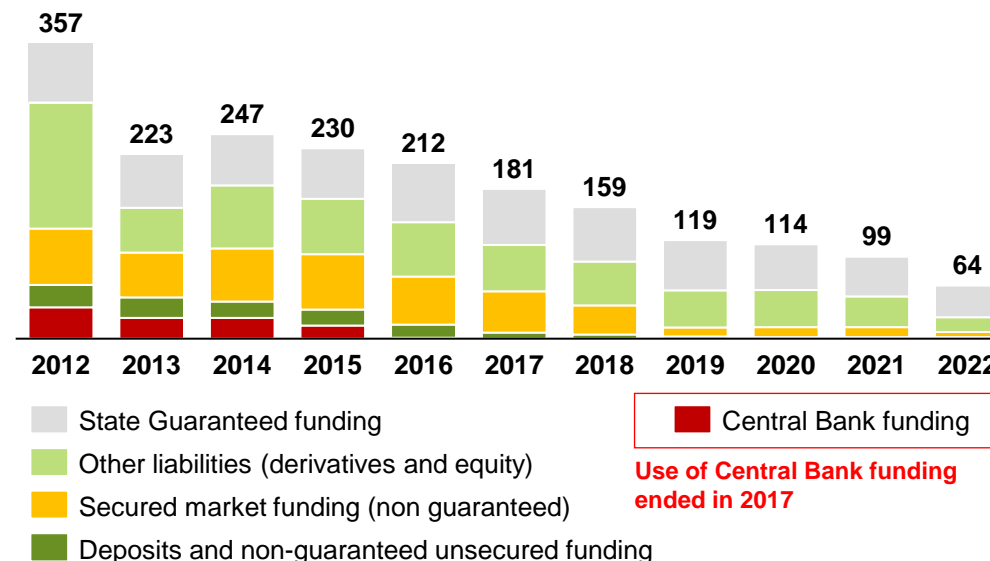

## ... Dexia has significantly reduced its footprint

All mandatory divestments were achieved by 2018.  
 With Crediop's merger in 2023, Dexia no longer has any significant subsidiary

## ... Dexia has considerably improved its liquidity position and no longer depends on Eurosystem's refinancing mechanisms

### Funding mix (€Bn)

The benefits that justified maintaining Dexia's banking license in 2012 no longer apply and Dexia is able to continue its resolution outside the regulatory framework

## A decision that preserves Dexia's operational continuity

### Funding capacity

- Belgian and French **States funding guarantee** maintained
- **HQLA L1 eligibility** retained
- Setting up of an additional **contingency liquidity buffer**

### Ability to keep robust risk monitoring and management

- **Robust risk management framework** maintained
- Setting up of an **independent Surveillance Committee** that takes over from the banking supervisors

### Capacity to pursue the Orderly Resolution Plan

- Further ability to **manage the run-off of the balance sheet**
- Ability to pursue **own account trading operations**
- Retention of a **direct access to clearing houses** and the **main trading venues**

# A decision enabling the implementation of a model better suited for pursuing Dexia's orderly resolution

## Streamlined organisation

**Simplifying regulatory production**, as a non-bank

**Transforming the operating model**

**Capturing additional cost savings**

## Adequate funding scheme

**Securing 2 key funding pillars:**

- **State-guaranteed funding** with **HQLA L1** eligibility
- **Short-term repos** (by maintaining direct access to repo platforms)

# Dexia's profile post-debanking

## Description and status

- **Dexia Holding, 99.6% State-owned, ceased to be a financial company under Belgian law in 2024**
- **Dexia is the main operating entity** and has a perimeter converging to the one of Dexia Holding, with a total consolidated balance sheet of EUR 60.6 billion at 30 June 2023; >99% of the Group's assets held by Dexia
- **Simplified and unified governance:** the members of the Management Board and Board of Directors of Dexia Holding are members of those of Dexia
- **Dexia remains a limited company** ("Société anonyme") under French Law **and the Group's issuing entity.**

## Structure

**Dexia is able to continue the activities essential to its orderly resolution, while being more agile in managing its cost trajectory and continuing to evolve within a secure framework**

# Fixed Income Investor Presentation Agenda

January 2024

## 2 Update on the resolution

- A Recent developments
- B Evolution of the balance sheet
- C Portfolio breakdown and asset quality

# A Recent developments

**Further reduction of the geographic footprint and the asset portfolio**

**Reshaping the operating model**

## Cross-border merger of Dexia and Dexia Crediop

- Implementation of the merger by absorption of Dexia Crediop by Dexia by September 2023, with retroactive tax and accounting effect from 1 July 2023
- Local presence maintained through the establishment of an unregulated branch in Rome, in support of Dexia's head office
- The disappearance of Dexia Crediop, Dexia's last significant subsidiary, will lead Dexia to examine the need to continue to publish consolidated financial statements.

## Continuation of the asset disposal programme

- By 2022 Dexia had achieved the target volume of disposals set by the Board of Directors in July 2019, at a cost 35% lower than the allocated loss budget.
- In order to pursue the objective of reducing portfolios, the Group's governing bodies decided to extend this programme into 2023.
- Deleveraging programme to be extended in 2024-2025 subject to macroeconomic conditions

## Sale of the leasing entities

- in December 2023, signature of a sale and purchase agreement agreement between BAWAG and Dexia concerning the last leasing activities of the Dexia Group

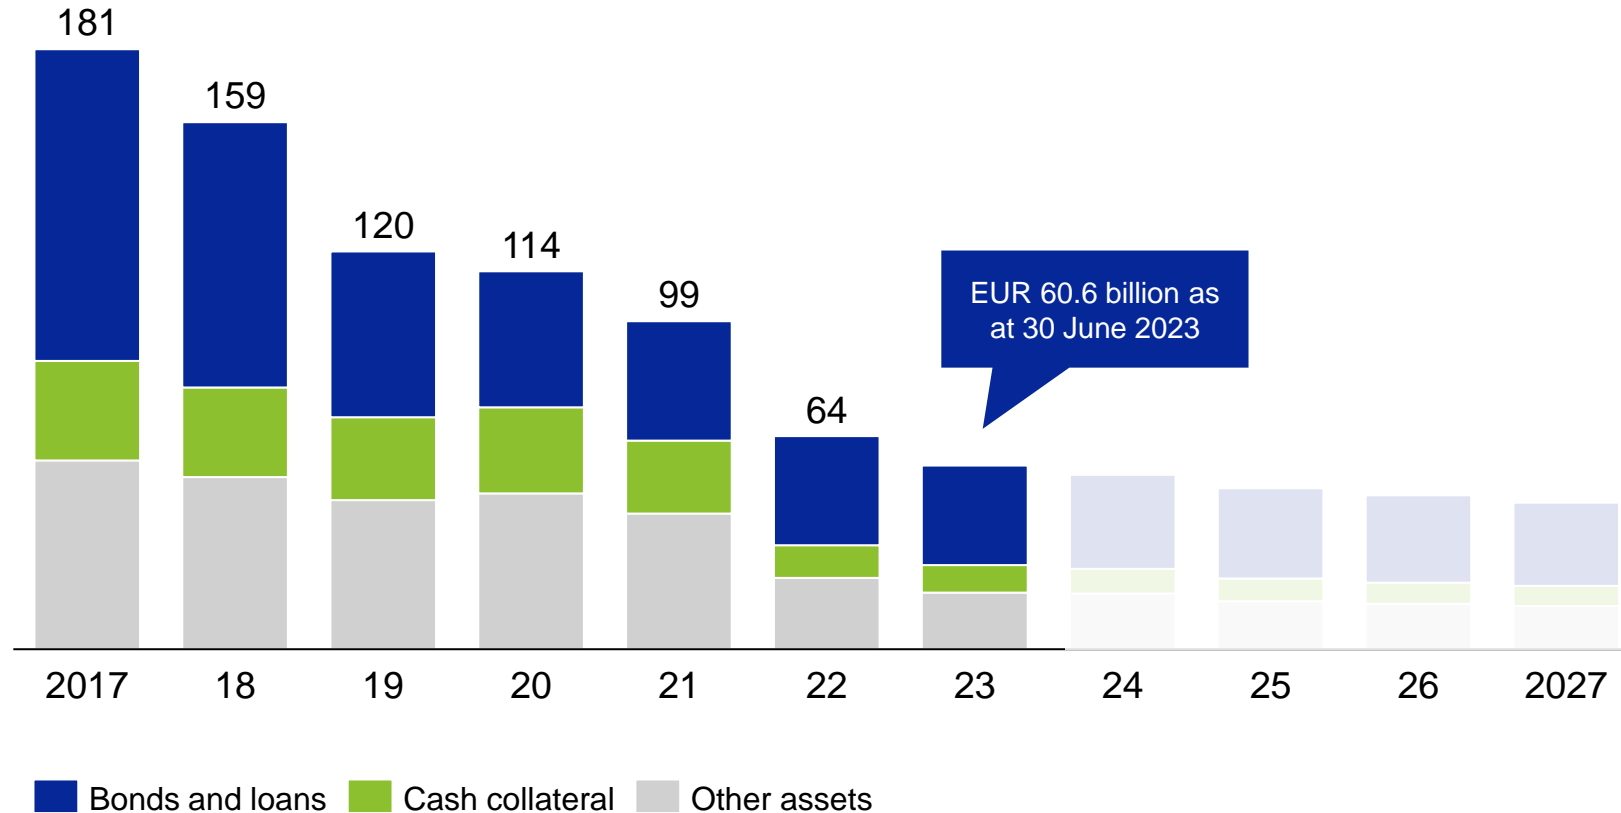

## New target operating model

- Implementation of actions to ensure operational continuity, capture simplifications and optimise Dexia's cost structure

# B Evolution of the balance sheet

## Indicative<sup>1</sup> Run Off Balance Sheet

For illustration purpose only (in EUR billion)

- **Sensitivity to exogenous factors**, as the amount of cash collateral posted and fair value items may be impacted by interest rate and exchange rate movements.
- As at 30 June 2023, net cash collateral at a historic low level of EUR 8.3 bn and funding requirement at EUR 42.8 bn
- **No numerical targets** set by the European Commission **in terms of asset disposal**; deleveraging mainly driven by asset value optimisation

1. Targeted figures as determined in the business plan of November 2012 (updated in Dec. 2021) underlying the Orderly Resolution Plan approved by the European Commission

# Portfolio breakdown and asset quality

## Portfolio description

- **Good asset quality overall:** >90% assets within the investment grade range
- **Low cost of risk:** limited amount of non-performing loans
- **Portfolio characterised by long-term loans to the local public sector:** ~69% with a maturity above 10 years

## Key portfolio figures<sup>1</sup> (30 June 2023)

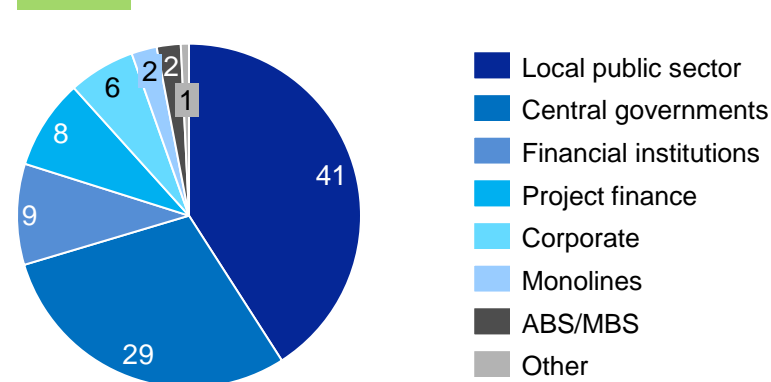

Number of exposures	6,401
Number of debtors	1,906

## 3 Funding and liquidity

- A Funding mix and toolbox
- B Features of the State funding guarantee
- C Focus on State guarantee issuance

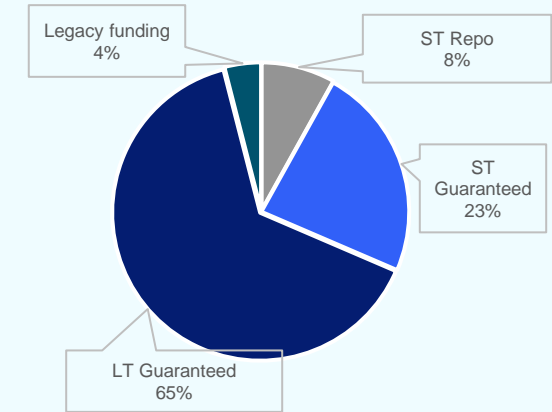

# A Funding mix and toolbox

- Dexia has a **robust and cost-efficient funding model** based on diversification of:
  - **Full range of funding instruments** allowing to access all liquidity sources
  - **Currencies** with strong funding franchises developed in Euro, US Dollars and Sterling
  - **Geographical** areas in terms of investor base
- The funding model proved its resilience and efficiency during the Covid-19 crisis
- No reliance on ECB funding since 2017

## Dexia has a complete funding model based on 3 pillars

and **HQLA L1 eligibility**  
for **State-guaranteed debt**

1. Rating details are provided in slide 22

2. The extension of the State guarantee was approved by the European Commission in September 2019

3. Outstanding State guaranteed amount of EUR 37 billion as at 29 June 2023

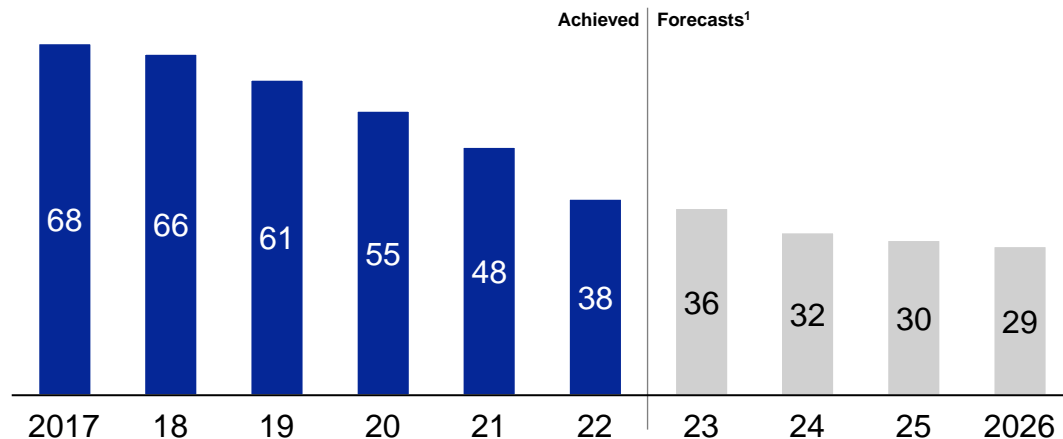

## C Focus on State-guaranteed issuance

### Key pillar of the funding mix

- As the robustness of the explicit State guarantee has positioned Dexia as an SSA issuer, this source of funding progressively became the key pillar of the Group refinancing
- Regular bond and commercial papers issuances allow to benefit from a stable and cost-efficient refinancing structure
- A strong funding franchise developed since 2013 with a focus on the main currencies of the asset portfolio: EUR, USD and GBP

## C Ratings as at 2 January 2024

State-guaranteed debt	Long term	Outlook	Short term
<b>Dexia</b>			
Fitch	AA-		F1+
Moody's	Aa3	Stable	P-1
Standard & Poor's	AA		A-1+
Senior unsecured debt	Long term	Outlook	Short term
<b>Dexia</b>			
Fitch	BBB+	Stable	F1
Moody's	Baa3	Stable	P-3
Moody's – Counterparty Risk (CR) Assessment	Baa3(cr)		P-3(cr)
Standard & Poor's	BBB-	Stable	A-3

*“We now analyze Dexia as a nonbank financial institution (NBFI) and no longer a bank. While partially mitigated by the creation of a new surveillance body by the guarantor states and the maintenance of Dexia's high-quality liquid assets level 1 eligibility, we believe NBFIs face incremental risk relative to banks because they operate outside a regulated framework. We therefore lowered our long- and short-term issuer credit ratings on Dexia to 'BBB-/A-3' from 'BBB/A-2'. The stable outlook reflects our expectation that Dexia will implement an orderly wind-down of its operations and continue to benefit from the very strong commitments of the Belgian and French governments in this process over the next two years.”*

**Standard & Poor's – 2 January 2024**

*“In Moody's opinion, the interests of the shareholder States will remain aligned with those of DCL's creditors because of the government guarantee that benefits the bulk of the unsecured debt issued by DCL and more generally because of the two States' commitment to supporting an orderly resolution. Although DCL will no longer be a bank, Moody's expects that the new surveillance committee to be set up by the French and Belgian States will provide a suitable substitute to current supervision.”*

**Moody's – 7 July 2023**

*“Fitch considers that there is a high probability that additional support would be provided to DCL by Belgium and France, if required, to complete the orderly wind-down of the company.”*

**Fitch – 28 June 2023**

# Appendix

# Zoom on Dexia's funding capacity as a non-bank

## Issuance of guaranteed debt keeping the HQLA L1 qualification

- Dexia continues to refinance its balance sheet **notably through the issuance of State-guaranteed debt**
- All GGBs issued by Dexia under this State-guarantee, **have the HQLA Level 1 qualification** (for debt already issued and to be issued after debanking)

## Contingency buffer

- Dexia has constituted an **additional contingency buffer**, as it is no longer able, as a non-bank entity, to access the Emergency Liquidity Agreement (ELA) provided by National Banks

Dexia keeps the **ability to refinance its balance sheet** under appropriate conditions and volumes and to **face stressed market conditions** by maintaining a liquidity buffer and an additional contingency buffer

# Zoom on the risk management framework

This system maintains three lines of defense, including compliance monitoring and AML control procedures, as well as an internal audit mechanism. It is based on a risk appetite framework (RAF) and appropriate monitoring indicators.

## Solvency

Dexia sees to it that solvency is ensured in the short, medium and long term by:

- **Maintaining a level of capital sufficient to face potential risks and address adverse market conditions**
- **Preserving the best possible funding conditions**

## Liquidity

Dexia monitors and manages its liquidity via:

- A number of indicators, including stressed and unstressed **survival horizons** in each relevant currency
- **Liquidity buffers** which are calibrated to cope with stressed market situations and thus avoid calling on the funding guarantee granted by the Belgian and French governments

## Asset Liability Management (ALM)

Dexia maintains Asset Liability Management (ALM) in order to **measure and control the interest rate, exchange rate and liquidity risks on its balance sheet**

## Operational risks

Dexia maintains the **necessary expertise to continue the orderly resolution; the employability of Dexia staff members remains a major point of attention**. Dexia makes sure that staff members are regularly informed of their prospects and that their uncertainty is reduced during the transformation

Dexia makes sure that risks linked to **relations with service providers and access to market infrastructures** are contained

Operational risks must never significantly **affect the Group's ability to manage its short-term liquidity or solvency or jeopardise business continuity**

# Zoom on the independent Surveillance Committee

An independent Surveillance Committee has taken over from the banking supervisors, particularly in terms of risk and internal control monitoring

## Composition

**Members** evenly appointed by Belgian and French States

**4-year mandates**

**Strong expertise in banking supervision**

‘Comply or explain’ policy applies to opinions and recommendations made by the Surveillance Committee to the Board of Directors

## Mission

Dexia’s overall governance structure remains unchanged

- **Issue an opinion on compliance with fit and proper requirements** by candidates for the positions of members of the Board, the Management Board and candidates for the positions of heads of internal control functions;
- **Issue technical opinions on the assessment of Dexia Group's risks** regarding asset and derivative portfolios, the funding structure and the solvency and liquidity positions;
- **Issue an opinion in case of shortcoming** concerning quantitative data quality, quality of tools for monitoring risks and internal control organisation and systems;
- **Issue an opinion on risks associated with any project** the impact of which on Dexia’s balance sheet, P&L, equity or liquidity **could lead to the crossing of warning thresholds** in the short, medium or long term;
- **Alert** the Board of Directors when **Dexia’s strategic decisions**, or their execution suggest **incompatibility with the orderly resolution plan or the risk appetite framework**.

# 2013 and 2022 State funding guarantee mechanism

## Process

- No acceleration of payment. Guarantee calls leading to payment obligations of the States only in accordance with the normal payment schedule of the guaranteed obligations (“Pay as you go”)
- Call by any third-party beneficiary or security holder, or any proxy holder, agent, settlement institution or trustee acting for the account of the former, on the guarantee by simple notice delivered to each of the States within 90 days after the date of non-payment by Dexia
- Third-party beneficiaries or security holders not required, in the context of securities and financial instruments, to exercise the guarantee, to make any demand against Dexia, to take any action against Dexia or to file claims in any insolvency proceedings relating to Dexia
- Regular guarantee payment period of 5 days for all debt issuance except USD short term funding (< 365 days) which may benefit from a shorter 3 days period
- Guarantee drawn up in French and in English, both languages being equally binding
- dOutstanding guaranteed Debt to be followed on:
